May 2023

Dear Friends,

It is with mixed emotions that I write to inform you of my retirement as your cardiologist on July 31st of this year. After many years of serving this community and helping to improve the health and well-being of so many of you, it is time for me to pass the torch and enjoy a well-deserved retirement.

I want to thank each one of you for entrusting me with your health at both Sayed Feghali Cardiology Associates and Texas Heart and Vascular Specialists over the years. It has been an honor and a privilege to serve as your physician, and I am grateful for your trust and confidence.

As I prepare to step down from my role here, I want to assure you that your care will continue seamlessly. I have worked closely with my colleagues to ensure a smooth transition for all my patients, and I am confident that they will provide you with the same high level of care and attention that I have always strived to deliver.

My partners, Dr. Joggy George, Dr. Samar Sheth, and Dr. Salman Bandeali are well-respected and experienced cardiologists who have worked alongside me for many years, and I trust them implicitly. They will have access to all your medical records and will be able to provide you with the same level of personalized care and attention that you have come to expect from me.

I will be keeping my regular schedule until July 31, 2023. If you have a scheduled appointment with me after that, I encourage you to continue your regular appointments with one of my associates. If you have any questions or concerns about the continuity of your care, please do not hesitate to reach out to our office. The dedicated staff here is committed to ensuring a smooth transition for you and will be happy to answer any questions you may have.

Again, I want to thank you for the privilege of serving as your cardiologist over the years. It has been an honor to be a part of your healthcare journey, and I wish you all the best for your continued health and well-being.

Sincerely,

Sayed Feghali, MD
